Press Release #3

**NEWS RELEASE
FOR IMMEDIATE RELEASE**

Traffic Citation Involving Dabo Sweeney

PICKENS, S.C. (Thursday, September 27, 2012, 1:30 P.M) The City of Pickens did not terminate Mr. McClatchy for conduct related to the issuance of the citation. His conduct during the traffic stop was professional and he followed all appropriate procedures. Mr. McClatchy was terminated for engaging in private activity on company time on company equipment in addition to violating several general orders. It is important to note that Mr. McClatchy spent an hour and a half during his police shift at the police station “editing” his blog post.

The City has policies in place where employees who believe they are wrongfully disciplined or terminated may grieve to the Department Head, the Administrator, and finally, the City Council. Mr. McClatchy never made any request to grieve either of his two previous disciplinary warnings or this final action. Instead he has chosen a different route.

If necessary, the City is fully prepared to defend our decision. However, we will do so in a more proper setting, such as a court room where these matters belong.

-END-
